Casement windows

Glazed walls

For over 50 years, Reynaers has been designing cutting-edge glazing solutions for some of the most iconic buildings in the world. Engineered without compromise, our range of aluminium windows and doors have been specified, time and again, by the world's leading architects and construction companies.

Reynaers at Home will connect you to a network of carefully selected Partners who will guide you through the home transformation process, from the initial design and specification stages through to the supply and installation of your bespoke window and door systems from Reynaers Aluminium.

“I like quality brands”

“I like to
buy from a
company
I feel I can
trust”

Whether you are designing and building your own house, adding a new extension to your current home or replacing the tired old French doors with a stunning new set of Bifold doors, choosing the right doors and windows can make the difference between the ordinary and the spectacular.

Installing Reynaers products in your home is a lifestyle statement that will not go unnoticed.

When only the best is good enough, Reynaers is the only choice.

“Style is really important to me”

“My home feels special”

You want your home to feel warm, safe and secure; a place where you can relax in comfort.

Having worked with some of the most renowned architects in the world, we know that with a bold design, our stunning windows and doors can make your home feel truly special.

“For me, it’s not about price, it’s about quality and value for money”

“I want windows and doors that add style and character to my house”

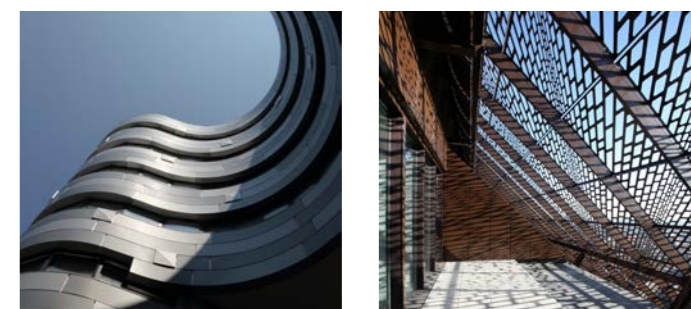

“I want to be able to enjoy an unobstructed view”

With decades of experience of working with architectural aluminium, our doors and windows lead the way in combining structural integrity with slim frame profiles that maximise the glass area.

Not only does this mean our aluminium frames are slimmer than equivalent uPVC and timber alternatives, but we can also span much greater lengths, giving you unobstructed panoramic views.

“I love
contemporary
design”

It is no coincidence that aluminium is widely used as a window and door frame material in the most prestigious and iconic new buildings around the world.

Select from hundreds of hard-wearing, durable colour finishes and rest assured that they will never need repainting.

Furthermore, expansion and contraction with changes in temperature are kept to a minimum, making aluminium the only sensible choice for bifold doors, patio doors and large picture windows.

Most commonly used in projects with a more contemporary design, aluminium is often overlooked as a suitable material for more traditional properties.

Our slim frame profiles mimic the sightlines of *traditional steel* windows, and a modern glass extension can both contrast and complement an older character property.

“I like to have things that are different”

“I don't mind
paying a bit
more for a
quality brand”

With a world-class testing and design centre and more than 50 years industry experience, Reynaers are proud to be pushing the boundaries of product quality and performance.

All our products are tested to meet and often exceed the British and European standards for security, weather resistance, thermal insulation, durability and noise reduction and have been installed in some of the most exposed locations.

"I want windows and doors that look stunning"

Featuring Reynaers CF 77

“My home tells other people who I am”

Bifold doors can transform an ordinary room and make it a feature of the house, opening up the house to the garden and letting the outside in.

An innovative, modern design statement, our aluminium bifold doors offer industry-leading sizes, giving your house the real wow factor.

The Hi-Finity sliding patio door system is the epitome of modern design, combining contemporary aesthetics with outstanding performance. This exclusive door offers floor-to-ceiling glass, super-thin aluminium sections, an ergonomically designed soft-touch, slim-line handle and a concealed electronic locking system.

You can even choose to have a fully automated door that glides open and closed at the push of a button. For the discerning homeowner who wants the very latest in contemporary design and ultimate performance, the Hi-Finity door sets a new benchmark of excellence.

“I want the very latest in contemporary design”

“I take pride
in my home”

Huge unobstructed glass areas and an effortless sliding mechanism combine to make our sliding doors the perfect solution for rooms with a view.

Designed with security and weather resistance in mind, these low-maintenance doors combine state-of-the-art performance with stunning aesthetics.

“Returning home
puts a smile on
my face”

“I like to entertain friends and family in my home”

Our innovative opening corner solution allows you to open up two doors that sit perpendicular to each other on adjacent walls, meeting at the corner without a fixed corner post.

When both doors are open, the ceiling above appears to defy gravity, creating a really stunning architectural feature.

"I will only buy products for my home that have been thoroughly tested and are known to be reliable"

Whether you want a modern conservatory or a stylish extension, Reynaers can offer a made-to-measure solution that is perfect for your home.

What is more, you can include our patio doors or bifold doors in the design to give a truly spectacular additional living space.

“I love light
and airy living
spaces”

“I like to keep my home looking good”

As you would expect, Reynaers offers a comprehensive range of complementary windows and doors. Whether you choose a fixed panoramic window, a tilt-turn window, a parallel opening window or a casement window, you can rest assured that they are all designed to offer uncompromising performance and stunning aesthetics.

“I want my home to be individual”

Featuring Reynaers CP 155, CS 77 and CW 50

All Reynaers products are made-to-measure to meet your very specific individual requirements. With all our products you can choose from hundreds of colours with a matt or gloss finish, you

can have a realistic wood-grain effect or for a real wow factor, choose one of our stunning metallic finishes. You can even have a different colour inside and out.

“Looking after the environment is important to me”

Aluminium is an abundant material that is infinitely recyclable with no loss of quality.

What is more, the industry-leading thermal insulation that our products offer will help keep your energy bills down, helping homes to become more sustainable.

“I want to be treated like a valued customer and made to feel special”

Reynaers products are available through a network of carefully selected partners.

All have demonstrated an exceptionally high level of customer service and have agreed to work to our stringent code of conduct.

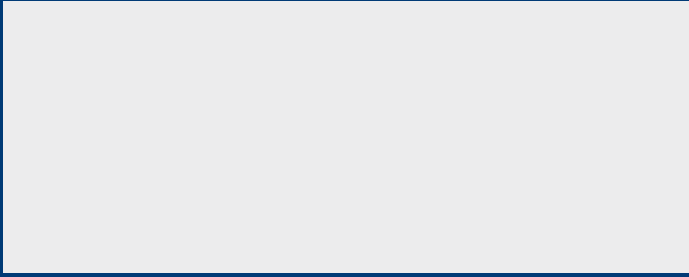

"I love the idea of being able to open up the house to the garden on a sunny day"

Reynaers Aluminium constantly seeks to develop and improve its products and service for its customers. Therefore, it reserves the right to amend the product specification, from time to time. The photographs in this brochure show Reynaers products which may occasionally differ in detail and appearance to those we currently offer.
